L I G H T I N G C O N T R O L S

GRAFIK Eye Preset Lighting Controls add drama to any room by allowing you to instantly recall a preset lighting scene perfectly suited for the moment. They are ideal for rooms or areas with multiple lighting zones that often need to be adjusted for changing activities, such as dining rooms, living rooms, and home theaters. GRAFIK Eye Controls take the place of two to six switches, simplifying control, while adding flexibility. An infrared receiver is built-in for hand-held control of your lighting.

GRAFIK Eye units can also be controlled from HomeWorks Interactive Keypads, as well as from touchscreens, universal remotes, and other home automation controls.

DESIGN NOTES:

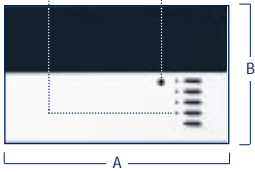

GRAFIK EYE PRESET LIGHTING CONTROLS

Two-Zone

A = 4.94" (123mm)
B = 4.50" (114mm)

Three-Zone

A = 6.69" (168mm)
B = 4.50" (114mm)

Four-Zone & Six-Zone

A = 8.31" (208mm)
B = 4.50" (114mm)

FEATURES

- Four preset lighting scenes can be accessed from the GRAFIK Eye Main Unit
- Additional scenes (up to sixteen total) can be accessed using an Infrared Remote Control or other accessory device
- Built-in infrared receiver works with Lutron Infrared Remote Controls (model GRX-IT or GRX-8IT). Most learnable remotes are also compatible
- Preset scenes can be temporarily adjusted at the GRAFIK Eye Main Unit at any time by the user without affecting the HomeWorks Interactive system programming
- Programmable fade rates can be set for each scene (between zero seconds and sixty minutes)
- All models can control incandescent, magnetic low-voltage, neon, cold cathode, electronic low-voltage (with interface) and fluorescent (with interface) lighting loads

NOTE: Lutron recommends that GRAFIK Eye Controls be mounted close to eye level (between 52" and 60" high)

MODEL	MAXIMUM ZONE CAPACITY	MAXIMUM UNIT CAPACITY	MOUNTS IN
Two-zone	800W/VA	1200W/VA	2-gang US switch box
Three-zone	800W/VA	1500W/VA	3-gang US switch box
Four-zone	800W/VA	2000W/VA	4-gang US switch box
Six-zone	800W/VA	2000W/VA	4-gang US switch box
