

S L I M - B U T T O N

K E Y P A D S

Slim-Button Keypads provide the ability to control and monitor lighting, audio, video, and other home systems, in a single room and throughout your home. Each Keypad button may be programmed to control an individual lighting zone, any group of lighting zones, or a lighting scene for your entire home and landscape. By taking the place of several switches, Slim-Button Keypads minimize wall space, while maximizing the number of functions possible.

Keypads are often used in high-traffic areas, where convenient control of many lights is needed, but the design elegance of a single Keypad is desired. Slim-Button Keypads can be custom-engraved below each button with names of your choosing at no additional cost.

DESIGN NOTES:

SLIM - BUTTON KEYPADS

HWI-KP5
 A = 2.75" (70.0mm)
 B = 4.50" (114.0mm)

HWI-KP10
 A = 2.75" (70.0mm)
 B = 4.50" (114.0mm)

HWI-KP15
 A = 4.50" (114.0mm)
 B = 4.50" (114.0mm)

FEATURES

- Each button on a Keypad may be programmed to perform any one of many different functions, including
 - turning individual scenes/zones on or off
 - turning selected scenes/zones on or off as a group
 - raising or lowering selected scenes/zones as a group
- Small LEDs beside each button show the status of the scene or lighting zone programmed to that button
- Slim-Button Keypads feature two larger buttons, typically used as all on and all off function buttons

NOTE: Lutron recommends that Keypads be mounted close to eye level (between 52" and 60" high)

MODEL	NUMBER OF BUTTONS	MOUNTS IN
HWI-KP5	Five slim plus two large buttons	1-gang US switch box
HWI-KP10	Ten slim plus two large buttons	1-gang US switch box
